## About Me

I am a highly motivated and skilled ITI Fitter with a strong passion for precision engineering and a dedication to producing high-quality work. My commitment to safety, accuracy, and efficiency has allowed me to excel in various roles within the industry.

## Experience

### DANA ANAND PVT LTD 2022 - 2023

#### Production line & Assembly

- Installed, maintained, and repaired industrial machinery and equipment.
- Conducted routine inspections and identified issues, ensuring minimal downtime.
- Collaborated with the maintenance team to troubleshoot and resolve mechanical problems.
- Operated various hand and power tools to perform precision work on metal components.

## Education

### ITI Fitter (Industrial Training Institute)

- Institution Name: Azeem Institute, Ausa
- Location: Ausa, Latur
- Year of Completion: 2022

## Expertise

- Welding and Fabrication: Knowledge of welding techniques, including MIG and TIG welding, is often required for joining and fabricating metal components.
- Assembly and Disassembly: ITI Fitters are responsible for assembling and disassembling machinery and equipment, which may include aligning parts, securing fasteners, and making adjustments to ensure proper functionality.
- Teamwork: Collaboration with other tradespeople, engineers, and supervisors is often necessary to complete projects successfully.
