Summary

I'm currently seeking to continue my Aviation Career Journey in Operations, Engineering, Tooling, Supply Chain or Facilities Management where I can leverage my 21 years of experience in the Aviation Industry. I am eager to contribute my expertise in strategic planning, operational optimization, and team leadership to drive business growth and operational excellence. I am particularly interested in opportunities that allow me to continue leading cross-functional teams, managing large-scale projects, and implementing innovative solutions in a dynamic, global environment

Skill Highlights

- Project management
- Strong decision maker
- Complex problem solver
- Team-player
- Environmental Management
- Customer Oriented
- Innovative
- Service-focused
- Energy Management

Work Experience

Division Manager – June 2023 to May 2025

Head of Facilities Management, Lufthansa Technik Philippines

Supervises and manages the Facilities Management Division of LTP. Provides strategic oversight and leadership to Facilities Operations and Engineering teams, ensuring efficient service delivery across key business units and support services. Involved in the decision-making process of the facility upkeep and construction improvement and upgrade projects in Manila, Cebu, Clark, Davao, Kalibo and Caticlan locations. Managed Ground Support Equipment team, towing, aircraft docking, scaffolding and Fire Protection Systems. Headed Environmental Management and Energy Management of the company and implemented cost-saving, energy saving and environmental compliance projects

Division Manager – July 2015 to May 2023

Head of Base Maintenance Production Planning, Lufthansa Technik Philippines

Supervised and managed the Production Planning Division of LTP. Involved in the decision-making process of creating aircraft maintenance tenders, long and short-term project scheduling of heavy maintenance projects. Ensures that Part 145 CAMO Requirements are met. Managed project preparation and implementation team focused on labor hours and accomplishment of major milestones in projects. Handled 2-year Slot Management and Scheduling of LTP Base Maintenance interfacing with Airline Network Management

Section Manager – July 2009 to July 2015

Tool and Equipment Engineering, Lufthansa Technik Philippines

Supervised and managed the Tool and Equipment Engineering Section of LTP. Handled major decision-making in supply chain management of Tools and Equipment required in Aircraft Overhaul, Line Maintenance Services and Engine Overhaul Services.

Engineer – September 2003 to July 2009

Tool and Equipment Engineering, Lufthansa Technik Philippines

Involved in various cross-functional projects across Lufthansa Technik Philippines' Line and Base Maintenance units. Handled supply chain coordination, tool design and documentation, and supported production teams in implementing Engineering Orders, Service Bulletins, and aircraft maintenance procedures.
