## Senior Backend Developer

📞 9650901148/8957369585    @mranurag101@gmail.com    [🌐 linkedin.com/in/anurag-kumar-yadav-b3b861125](https://www.linkedin.com/in/anurag-kumar-yadav-b3b861125)  
📍 Noida, Uttar Pradesh, IN

### KEY ACHIEVEMENTS

- ✔ **High-Volume Processing in Government Projects**  
Successfully handled 1M+ government records with zero errors while executing World Bank and parliamentary platforms serving millions
- ★ **Performance Optimization and Lead Generation**  
Improved system response times by up to 90% across multiple platforms and developed systems generating 1500+ monthly qualified leads

### SKILLS

AWS	AWS Cloud	
AWS Lambda	Bootstrap	
Chart.js	CloudFront	CRM
EC2	Encryption	Git
Highcharts	HRMS	HTML
JavaScript	jQuery	Laravel
Memcached		
Payment Gateways	PHP	
PHPUnit	Postman	
Puppeteer	REST	S3
SNS	SQL	Yii2
WhatsApp	Payroll	

### SUMMARY

I am a Senior PHP Developer with over 6 years of experience in building government platforms, HRMS systems, and SaaS applications. My notable achievements include reducing page load times by up to 85%, processing over 1 million records successfully, and automating data synchronization for World Bank projects. I specialize in PHP frameworks, API development, and AWS cloud services

### EXPERIENCE

#### Senior Backend Developer & Team Lead

**Triline Infotech Pvt Ltd**    📅 11/2020 - Present    📍 Noida, Uttar Pradesh

A company focused on developing innovative software solutions, particularly in the governmental sector

- Launched booking platforms generating over 1,000 monthly leads.
- Integrated payment gateways and third-party travel APIs.
- Built a wildlife tourism platform connecting over 500 enthusiasts with more than 50 operators.
- Achieved a 70% reduction in customer response time.

#### Software Developer

**Rove Management Services Pvt Ltd**

📅 07/2018 - 05/2020    📍 Noida, Uttar Pradesh

A management services company specializing in travel solutions

- Integrated Travel2 and Hotelbeds APIs for real-time flight and hotel inventory
- Constructed database-driven search system eliminating external API dependencies
- Executed booking platforms across UK, US, and Indian markets
- Generated 500+ qualified leads monthly with 40% conversion improvement
- Established centralized CRM connecting all platforms to sales executives with lead distribution workflows

### LANGUAGES

**English**    Proficient    **Hindi**    Native

### EDUCATION

#### Master of Computer Applications (MCA)

**LDC Institute of Technical Studies**    📅 01/2013 - 12/2015    📍 Prayagraj

#### Bachelor of Commerce (B.Com)

**University of Allahabad**    📅 01/2010 - 12/2012    📍 Allahabad

### PROJECTS

#### Legislative Platform (PRSIndia)

- Revamped India's parliamentary research platform by porting it from Drupal to Yii2, supporting 500+ Members of Parliament and 2M+ constituents, ensuring access to key resources.
- Optimized response times from 300ms to 30ms (90% improvement) using Memcached and database tuning.
- Streamlined migration of 10,000+ legislative records using Puppeteer with zero data loss.
- Accelerated page load times by 1.5 seconds through front-end optimization techniques, resulting in a measurable 10% increase in daily active users and improved user retention.

## PROJECTS

---

### SaaS Project Management (SpiderNet)

- Architected multi-tenant infrastructure with subscription billing and tenant isolation
- Improved project delivery timelines by 40% and reduced management overhead by 60%
- Programmed real-time collaboration features with role-based access control
- Scaled platform to support 50+ client organizations

### NGO Platforms (Smile Foundation & Oxfam India)

- Launched a donation platform increasing online contributions by 150%.
