I have ability to work well both in a team environment as well as using own initiative. I work under pressure and I adhere to strict deadline. I have a diverse cultural background that helps me to communicate with the team work project.

Experience:

 2019-2022: **A&P** Training on many General Aviation aircraft Including Beechcraft, Cessna, Piper, Bell Helicopter. – Kansas, United State of America.

Education:

2022 Bachelor of Science in Aeronautical Technology - Aviation Maintenance Management from Kansas State University, USA

Certifications:

2022 FAA Certified Airframe & PowerPlant Mechanic (A&P).

Accomplishment:

- I have run up KingAir by changing the battery, checking tire, and done the checklist of the KingAir under bad weather condition and a short time.
- I get my bachelor's degree in a short time and challenging the Coved-19 pandemic.
