PROFILE

Dedicated and licensed Aircraft Maintenance Technician with a BS in Aircraft Maintenance Technology and hands-on training in inspections, troubleshooting, and component servicing. Skilled in using calibrated tools, safety wiring, and interpreting technical manuals to ensure accuracy and compliance. Open to any entry-level opportunity where I can apply my skills, continue learning, and contribute to safety, quality, and operational efficiency.

SKILLS SUMMARY

- Able to do and perform tasks related to Safety Wiring, Ground Marshalling, Ground Support, and use of Ground Support Equipment
- Expertise in using hand tools, calibrated/precision tools, and specialized tools
- Basic troubleshooting of mechanical and electrical systems
- Understanding of maintenance documentation, inspection reports, and compliance procedures
- Knowledge of SMS principles, FOD prevention, and aviation safety standards
- Proficient in Microsoft Office (Word, Excel, Outlook)

WORK EXPERIENCE

Intern- Helper Mechanic

Feb 2024- Jun 2024

Aviacon M&B Co.

- Performed and trained in aviation-related tasks within Base Maintenance and Line Maintenance across diverse aircrafts such as Bombardier Learjet 75, Quest Kodiak 100, CESSNA Citation Jet CJ4, and BEECHCRAFT King Air 350i.
- Assisted in inspection, repair, and maintenance of aircraft components including engines, landing gear, and cooling systems.
- Supported scheduled and unscheduled maintenance under supervision of licensed engineers, ensuring compliance with safety and quality standards.
- Helped in disassembly, cleaning, and re-assembly of mechanical assemblies and component installations.
- Carried out daily and pre-flight inspections, performed servicing tasks, and recorded results in maintenance logs.
- Conducted tool control and equipment accountability to prevent FOD and ensure worksite safety.
- Collaborated with engineers to diagnose faults, implement corrective actions, and verify system functionality after repairs.
- Prepared technical and safety reports in line with SMS procedures and company documentation policies.
- Observed hazard identification and risk reporting practices, contributing to a culture of safety and continuous improvement.

EDUCATION

PATTS College of Aeronautics

Bachelor of Science in Aircraft Maintenance Technology
Aug 2020 - Aug 2024

TRAINING AND CERTIFICATIONS

Aviacon M&B Co.

- Safety Management System Certificate
- PCAR Part 1,2,3, 4,5,6,7, & 8 Certificate
- Daher Kodiak 100-General Familiarization
- Pratt & Whitney PT6A-34 -General Familiarization
- Bombardier Learjet75-General Familiarization

A+ Technical Training Center

- A319/A320/A321 (CFM 56) General Familiarization
