

JAVED IQBAL
GSE TECHNICIAN

CONTACT: +923166014500

Email: igbalatv245@gmail.com

Driver's License: Valid (Pakistan)

Nationality: Pakistani

SKILLS

- Communication
- Time management
- Team work
- Training
- Store management
- Inventory management
- Circuit designing

STRENGTH

- Work ethics
- Health safety
- Honesty & hardworking
- Good team player

CERTIFICATES

- Quality Assurance
- Quality Assurance Inspector
- Pakistan Aeronautical complex (ISO 9100 & AS 17025) Refurbishment/Overhauling
- Air Defence Ground support equipment & AC Field Maintenance

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Arabic (Read-Write-understand)

OBJECTIVE

To work in a position of responsibility in a professional competitive environment where my skills are utilized for the advancement of organization. So that I can utilize my comprehensive 23 years practical experience in relevant field and professional knowledge at Pakistan Air force (AMO), Pakistan Aeronautical Complex (MRO) & Precision Engineering Complex (PIA)

PROFESSIONAL EXPERIENCE

PAKISTAN AIR FORCE ENGINEERING DEPARTMENT (2000-2010 & 2016-2023)

Comprehensive 17 years maintenance experience (I & O Level) as GSE Technician, possessing extensive knowledge & multiple field experience at different Air Bases for maintenance of Ground Support Equipment in below mentioned fields :-

- Ground Power Units (Hobart-TLD-Trilectron & Ms Nextek GPU)
- Pre-Conditioned Air (PCA) Units for Aircraft cooling on ground
- Hydraulic Test stand (HTS)
- Towing tractor
- LP/HP Compressor
- Powered & Non-powered GSE
- Power Generators (Caterpillar-Mercedes-Hatz-Siemens-cummins-Power Zone)

PAKISTAN AERONAUTICAL COMPLEX ENGINEERING DEPARTMENT (2010 – 2016)

An extensive 6 years maintenance (D level) experience of Refurbishment & Overhauling of Ground Support Equipment in undermentioned fields :-

- Heavy duty & Specialist vehicles
- Heating ventilation & conditioning (HVAC) system
- Air conditioners (Residential & Commercial) & Air conditioning plants (Daikin-Hitachi-LG-Trane-york-Chiller)

JOB RESPONSIBILITIES

- Troubleshooting of GSE as per circuit diagram & replacement/adjustment as per standard desire.
- Preventive Maintenance & Inspection of all types of GSE as per OEM schedule.
- Refurbishment/Overhaul work on GPU, Specialist heavy duty vehicles, Air conditioners & HVAC System, wiring of control panel & fault diagnosing as per TOs.
- One time (OTI) as per assignment.
- Other duties as assigned by higher authorities.
- Preparation of Technical Instructions for safe & reliable operation of GSE.
- Circuit designing/rectification as per operational requirements.

PROFESSIONAL COURSES

- Mandatory training of ramp operation & maintenance of all types of Ground Support Equipment (GPU-PCA-Towing Tractor-forklift-Heavy Duty Vehicles)
- Maintenance & Troubleshooting course of all types of GSE (Power Generators-PCA-Mechanical Transport-HVAC)
- Maintenance Supervisory Course (MSC)
- Quality Assurance Course for Supervisors (Engineering)

QUALIFICATION

- BACHELOR (Electrical Technology)
- DIPLOMA (Electrical Technology)
