I was drawn to a career at your organization because of my interest in healthcare and desire to help others. I find it rewarding to play a part in a patient's recovery process and I enjoy the active, hands-on nature of the role.

I am hoping to be considered for the "-----" position at "-----". I bring extensive versatile experience in the healthcare field. My professional journey in healthcare began after my own personal experiences with wanting to help others and not having the ability to do so due to the roles and circumstances. I am super grateful for the experiences I've had so far working alongside care professionals, and seeing how the small work I did, that was nothing compared to the providers made such an impact on my patients really inspired me. I knew I wanted to continue making an impact and difference in others lives with the support I am constantly able to provide.

Sincerely ,
