Longwall recovery

GMS Mine Repair & Maintenance at Enlow Fork Mine - Claysville, PA

I was working longwall recovery at Enlow Fork mine, for GMS Mine Repair and Maintenance. It was a very fast paced job. I had to build crib and linking logs to help support the roof. I also had to hang pipes and do power moves, along with lots of other jobs to help keep the mine safe. I worked in crews, doing everything I was told to do and more. I am not afraid to jump in and work. Unfortunately I was laid off from this job not long ago.
