PROFESSIONAL EXPERIENCE

- Full Stack Developer - (Next.js), Freelance** 03/2024 - present
Bengaluru
- Developed and implemented reusable, SEO-friendly components using Next.js, TypeScript, and Tailwind CSS.
 - Ensured optimal performance and responsiveness of web applications across various devices and platforms.
 - Collaborated with the design team to translate UI/UX wireframes into functional and visually appealing web pages.
- Web Developer Intern, CODSOFT** 09/2023 - 10/2023
Bengaluru
- Utilized HTML, CSS, and JavaScript to complete assigned UI tasks.
 - Demonstrated strong communication and collaboration skills within the team environment.

PROJECTS

- PixifyAI (Under Development)**, <https://pixify-ai-olive.vercel.app/> 
Full-stack SaaS platform using Next.js, Tailwind CSS, ShadCN UI, TypeScript, MongoDB, and Clerk for secure user authentication. Features include AI tools for image restoration, recoloring, object removal, generative filling, and background removal. Hosted on Vercel with Stripe for secure payments and advanced image search capabilities.
- easyEstates - A Real Estate Platform**, <https://easy-estates.netlify.app/> 
Built "easyEstates": a MERN Stack Web App with TypeScript and Firebase, featuring JWT and Google Auth security. Effortlessly list, update, and delete properties while enjoying an enhanced user experience with cookies. Backend deployed on **Render.com** and Frontend deployed on **Netlify.com** for Microservices-like efficiency.
- Netflix Clone**, <https://manu-net-clone.netlify.app/> 
Developed a Netflix clone using React, Redux, Tailwind CSS, and Firebase, prioritizing efficient state management. Ensured an immersive user interface and mobile responsiveness for seamless viewing across devices.
- FitFlex - A Gym App**, <https://fitflex-typescrit-manu.vercel.app/> 
Crafted FitFlex Gym App using React, TypeScript, Framer Motion, and Tailwind CSS, prioritizing mobile responsiveness for seamless fitness journey experiences."

TECHNICAL SKILLS

- React.js & Next.js**
- React** - Components & Props, Hooks, Optimization, Router, babel, parcel, webpack, NPM, Redux, formik.
 - Next.js** - Routing, Fetching, Rendering and Actively improving Next.js Skills
- JavaScript & TypeScript**
- JavaScript** - Web Development, ES6, DOM manipulation, Asynchronous programming, AJAX, JSON.
