Seeking opportunities to apply my technical skills, solve real-world problems and contribute to innovative projects in a dynamic team.

CERTIFICATIONS

AI-Business Intelligence Analyst [4 months]

DDUGKY Certified by NASSCOM
12/21-3/22

ACADEMIC PROJECTS

Image Forensic Tool [Major project-MCA]

Front-End: .NET
Back-End: MySQL

The project 'IMAGE FORESIC TOOL' aims with detecting whether the image has undergone any compression or if it is embedded with a file. Forensic department mainly focuses on detecting any kind of malpractices done in the image, whereas the anti-forensic department tries to fool the forensic analyst by hiding the traces of compression.

In anti-forensic side our aim is to enhance the contrast of original image and then save it as a new enhanced image for further analysis. Mainly, it consists of two modules.

- Image pre-processing
- Contrast enhancement generation

GPS Based E-Pump [mini project-MCA]

Front-End: PHP
Back-End: MySQL

EDUCATION

Master of Computer Application

Mar Baselios Institute of Technology
Kerala University
2019-2021
