PROFESSIONAL SUMMARY

Effective Aerospace Engineer with 6 years of career experience in noise vibrations and acoustics for aviation industry. Expertise in field inspections, simulations and modeling. Background leading top-notch, focused teams involved in mission-critical applications. Influential aerospace engineer with outgoing personality and focus on working with high-level technical teams. Experienced in creating cost estimates and scopes of work for various projects. Background providing structural design analysis for airfield avionics. Established Aerospace Ground Equipment Journeyman with Top Secret Security clearance and experience working for large defense contractors. Great communicator successful working independently and as part of team. Career built on solid military training foundation and over 2 years of civilian experience.

WORK HISTORY

Aerospace Ground Equipment Journeyman, 01/2018 to Current Air Force - Bellevue, NE

- Determined cost estimates and scope of work schedule for each job function.
- Analyzed software to determine bug locations and applied it to debug procedures for mitigation purposes.
- Maintained basic knowledge of practices associated with government agency guidelines for aircraft installations.
- Recorded operational failures and variances reported by flight personnel, reporting to Aerospace ground equipment journeyman, where necessary.
- Diagnosed mechanical and electronic problems using personal skills, technical documentation, and testing tools.
- Performed preventive and corrective maintenance on aviation support equipment and associated systems and components.
- Repaired mechanical, electronic, and hydraulic components of specialized flight systems.
- Adjusted mission-critical variables on aircraft to suit the needs of the Air Force.
- Read and interpreted orders, drawings, schematics, and blueprints to complete accurate actions.
- Traveled extensively to customer sites to better understand project requirements and discuss potential technical constraints.
- Oversaw technical planning, system integration, verification and validation, and risks involved for complete systems.
- Onboarded new employees with training and new hire documentation.
- Accomplished multiple tasks within established timeframes.
- Helped with planning schedules and delegating assignments to meet coverage and service demands.

Cook Shift Leader, 04/2017 to 01/2018

G's Pizza And Wings - Clermont, FL

- Inspected kitchens to observe food preparation quality and service, food appearance and cleanliness of production and service areas.
- Inspected freezer and refrigerator daily to check and maintain proper temperatures.
- Prevented cross-contamination from utensils, surfaces and pans when cooking and plating meals for food allergy sufferers.
- Maintained high food quality standards by checking delivery contents to verify product quality and quantity.
- Placed orders to restock items before supplies ran out.
- Cultivated warm relationships with regular customers.
- Worked with POS system to place orders, manage bills and handle complimentary items.

EDUCATION
