

## Career Objective:

- To enhance my technical and managerial capabilities, contributing to organizational growth through expertise in machining ,fabrication, welding, inspection, purchase and supply chain management (SCM)

## Profile:

- Results driven NPD, Vendor development and supply chain engineer with 8 years of experience in machining, fabrication, welding, inspection and strategic procurement Expertize in ooptimizing supply chains, developing strong supplier relationships ,and ensuring cost effective sourcing Adept at process optimizatin, quality assurance, and manufacturing efficiency improvements

## Summary of Experience:

## Education:

- BE in Mechanical engineering** with aggregate of 68% from Visvesvaraya technological University Belgaum, INDIA in the year 2016
- Diploma in mechanical engineering** with aggregate of 66.8% from department of technical education, Banaglore in the year of 2013

## Existing Position:

- Senior Engineer- NPD/Supply chain Operations @ Hycom Engineering Ind Pvt Ltd

## Company profile:

The company is positioned to serve the construction, agriculture and off-highway vehicle and the Leading manufacturer of Rotary couplings, Hydraulic mobile control valves and rotary actuators

## Professional Exposure/Training:

- ISO 9001-2008 Standards.
- Component Sourcing.
- Vendor Development.
- Certified VDA6.3:2016 Internal Auditor by VISHUDDA BUSINESS SOLUTIONS
- Team building efforts through Training's and seminars.
- Certified for IATF16949-2016 internal auditor.

## Roles & Responsibility:

- Feasibility study for the new enquires and resource planning
- Identifying, evaluating and developing reliable suppliers to ensure cost effective and timely procurement of materials
- Project cost sheet preparation(Castings, round bar,forgings,seals,outsource machining)
- Managing procurement schedules, purchase orders and supplier agreements to optimize inventory leves
- Drive the APQP process, working closely with suppliers to develop and implement control plans, FMEA, and process flow charts
- Identifying and planning for acquiring controls, process, inspection equipment's, production resources and skills that may be required to achieve quality.
- Managed PPAP submissions for critical components, securing customer approval and ensuring smooth product ramp-up.

## Hycom

### Achievements:

#### **Lead Role -**

Project Execution of new segments rotary actuators (Domestic and Overseas)

#### **Regular**

Process, Product & Quality audits of suppliers.

#### **Continual Improvement**

Of Processes based on objective measurement.

- Collaborate with R&D and production teams to ensure smooth product transitions from prototype to mass production
- Implementing cost reduction strategies in sourcing and procurement to improve profitability
- Conducting regular supplier audits to maintain quality and compliance with the standards
- Managing stock levels efficiently to minimize the excess inventory and reduce waste
- ISO 9001-2008 certificate co-ordinations/Internal audits & Documentation

### Achievements:

**Certification:**  
Certified Internal Auditor for ISO 9001.

**2.65% Direct Cost savings on ATO through VAVE**

## Earlier Professional Experience: 3 @SANSERA ENGINEERING PVT LTD (Sep 2021 – Dec 2022)

- Responsible for the timely development and submission of the product samples as per the customer requirement

### **Roles and Responsibility:**

- Understanding customer needs and requirements for execution and closure of the project.
- Drawing study for new products & decides manufacturing feasibility check
- Proper documentation of APQP, PPAP, Control plan, PFD, PFMEA, Quality plan issue, submission & control accordingly
- Process inspection and final inspection gauge planning and procurement
- Quality improvement activity planning, trial, implementations according to requirement.
- Change point activity planning, trial, implementations according to requirement.
- Vendor development, Evaluation and Audit

### Achievements:

**Project leader-**  
KTM, Harley Davidson, Polaris, Triumph, Piaggio, Honda Customers

**Reduced defects by 12.7% through the implementation of SPC & QCC**

- Online Process Inspection and Clearance
- Final Product clearance
- Documentation.
- To interface with the supplier and work towards Quality issues on incoming supplies.
- Ensuring better Post Delivery Service.
- Coordinating with Internal Control review team for Audit queries and statutory compliance.
- Responsible for enhancing business value and Vertical growth with customers.
- To deliver Customer satisfaction (both external & internal).
- Improve efficiency of projects by working on better component pricing and process Improvements.

## Earlier Professional Experience: 2@EXEDY clutch Ind Pvt Ltd

(June 2019 – Aug 2021)

### **Roles and Responsibilities:**

- Feasibility study for the NPD & RFQ
- PPAP Documents preparation and submission for new products and also for existing parts if any changes in process or design
- Procurement of jigs & fixture ,tools ,inserts
- Preparation of SOM for Processes & machines,stagewise drawings
- Planning and organizing Process & Product Quality Audit
- Hands on during 4Q , 8D submission against the customer complaint

**ECI**

### **Achievements:**

Multiple inspection gauge introduction and cost reduction through process elimination

- Periodic machine capability, process capability conduct
- Conducting of new tool or inserts trials for quality & productivity improvement, reduce process cost

## Technical Skills:

- Vendor Selection & Management
- Supply Chain Optimization
- Strategic Sourcing & Procurement
- PPAP Documentation & Approval
- APQP Planning & Implementation
- SAP & ERP/MRP systems
- Advanced MS Excel and data analytics
- Lean Manufacturing tools (Kaizen, Kanban, etc.)
- CAD software (AutoCAD)
- New Product Development (NPD)
- Geometric dimensions and tolerance(GD&T)

## Soft Skills:

- Influencing skills for better work atmosphere
- Effective Communication
- Logical Presentation skills
- Creative & Problem solving.
- Self-motivator/starter & Optimist.
- Personality development skills
